JAKE GRAHAM

Seattle, WA | (425) 209-5332 | grahamj8@spu.edu | www.linkedin.com/in/jake-graham03

QUALIFICATIONS

- **Programming Languages:** C++, Java
- Reliable, Hardworking, and time-efficient team member.
- Experience with both software and hardware testing.
- Experience with AV design.
- Experience in audio mixing.
- Proficient in Jira, Confluence, and Excel.
- Dante certification levels I, II, and II.

EDUCATION

Bachelor of Science in Electrical Engineering — Estimated Graduation June 2027

Seattle Pacific University (Seattle, WA)

- Minors in Computer Science and Computer Engineering
- **Relevant Courses:** Engineering physics sequence, Circuits I, Data Structures I

RELATED EXPERIENCE

Summer Intern — June 2023 – September 2025

Symetrix (Mukilteo, WA)

- Tested Symetrix's proprietary control software, Composer.
- Tested Symetrix's hardware products with Composer.
- Used and managed test cases through TestRail and Jira.

Capstone Project — March 2024 – June 2024

Bellevue College (Bellevue, WA)

- Successfully transformed a voltage using two E-type transformer cores and a signal generator.
- Created a transformer circuit from base components (i.e. transformer cores, wire, etc).
- Created many iterations of the transformer circuit using different numbers of windings on each core to measure the transformed voltage of different winding ratios.
- Measured and conducted research into the transformer coupling coefficient (k).

ADDITIONAL EXPERIENCE

Job Shadowing — August 2025 – Present

Westminster Chapel (Bellevue, WA)

- Learned about the basics of designing and running AV systems.
- Learned the basics of the art of audio mixing.
- Learned about audio mixing equipment (mixers, gains, equalizers, pitch correction, etc.).
